# **MCFlow**

***Release v1.1.0***

**Robert F. De Jaco**

**Jul 26, 2020**

**CONTENTS:**

<b>1</b>	<b>Change MC Probabilities</b>	<b>1</b>
<b>2</b>	<b>Indices and tables</b>	<b>3</b>

## CHANGE MC PROBABILITIES

The probabilities of a batch of input files can be changed via

```
python3 /path/to/changeProbs.py -f /paths/to/file/dirs -i names
```

where `/paths/to/file/dirs` are the paths to the parent directories of the independent simulations, and `names` are the names of the independent simulations.

---

**Note:** it is recommended to add the `-vv` argument to get extra verbosity to see what happens

---

For example, the invocation might be

```
python3 ~/MCFlow/mcflow/changeProbs.py -f *-0/*K/0.001MPa -i 1 2 3 4
```

To find out more options, ask for help

```
python3 /path/to/changeProbs.py --help
```

## INDICES AND TABLES

- `genindex`
- `modindex`
- `search`
